

Berna 2 VM Snow plough

The Saurer 2 DM and Berna 2 VM were among the most popular vehicles, both with drivers and passengers. A heated cabin with three seats was not a normal matter for army vehicles. And the sliding windows in the doors were also very practical. Power-assisted steering, clutch and gear

The servo steering, air-assisted clutch and gearstick and a 4-speed gearbox with a quick-change lever on the steering wheel were further comfort features. There were small differences in the equipment between the Saurer and Berna models. The vehicle on display was also used as a snow plough.

Manufacturer	Berna (CH)
In use	1964-2009
Width	2,30 m
Height	3,2 m
Length	7.47 m
Seats	3 + 28
Mass	12 t
Fuel	160 lt, Diesel
Consumption	35 lt/100 km
Trailer load	9 t

Motor	Berna T3
	6-Cylinder in-line
Capacity	8.1 lt
Power	135 HP (99 kW)
Transmission	4-Speed plus over-ride
Drive	4-wheel with permanent off-road

Winch	
Pulling force	6,6 t
length	60 m
