

Henschel HS 3-14 HA CH With trailer 85 A8

After a pre-series of 5 Henschel lorries in 1963, the first series of 205 lorries was procured in 1964. These were allocated to the engineer troops as transport vehicles for the inflatable boat bridge 61. The armoured troops received 89 Henschels as spare parts vehicles. The vehicles for large parts had an open top and tarpaulin. Those for small parts with tarpaulin tops.

A total of 92 Henschels with tarpaulin tops were supplied for spare parts and operating materials for the tanks. The vehicle and trailer shown here, labelled A8, is equipped with tools and spare parts for the 68/88 bridge tank. In service from 1989 to 2011.

Manufacturer	Henschel (GER)
Prod. Year	1963-1971
Width	2,5 m
Height	3,14 m
Length	8.15 m
Seats	3
Mass	18 t
Trailer load	16 t
Fuel	200 lt, Diesel
Consumption	45 lt/100 km

Engine	Henschel 6 R 1215D 6-Cylinder in-line
Capacity	11 lt
Power	192 HP (140 kW)
Transmission	ZF AK 6-70-II 6-forward, 1 reverse synchronised
Drive	all-wheel permanent

Winch	Rotzler 6000 MV
Pulling force	6 t
Rope length	60 m
Trailer A8	
Payload	1.5 t
total weight	8 t
